## TONOPAH DIVIDE CLOSE TO VEIN ON FOURTH LEVEL REPORT SAYS

The main southeast drift on the third level of the Tonopah Divide has been advanced 350 feet from the main crosscut from the shaft and crosscuts to the foot and hanging walls of the vein will be driven at this point.

The crosscut being driven on the fourth level is close to the vein, according to unofficial reports, and the shaft has been sunk 45 feet below this level, according to A. I. D'Arcy, consulting engineer for the company.

Raises are being extended from the second to first level and will be continued to the surface for ventilation. The raise from the main drift on the third level is nearing completion.

## DIVIDE STOCKS ARE FAVORITES

The announcement that the Brougher Divide had struck ore caused a run on the chief Divide stocks this morning with the Divide Extension in the lead, touching 26 as the high point and reacting to 23 as the closing after 35,500 shares changed hands. Tonopah Divide reached its high mark with a sale of 300 at \$5.27 1/2. Gold Zone was traded at to the extent of 46,500 shares, reaching 37 and closing at 34. Brougher Divide, in which the inspiration of the market was based, sold up to 95 and closed at 90 after 10,500 shares were sold at 89 after reliable Hasbrouck sold for 31,500 shares, touching a high of 23 and closing at 21 with a total of 31,500 covered by orders. There was some activity in Goldfield and Spearhead sold 43,500 shares. Lone Star sold 49,000 shares up to 29, while Blue Bull was represented by 63,000 shares. White Caps showed unexpected strength on the statement that the recent strike is improving and orders for 22,500 shares raised the price to 17. The total turnover of the day was 502,500 shares, the largest day in the history of this market for three years.

## WOOTEN'S DEATH CAME SUDDENLY

The death of Riley Wooten near Mina was fully investigated by the deputy mine inspector, Charles Huber, who returned from the Simon mine this afternoon. The official reached the conclusion that death was due to accident, superinduced by over confidence of the deceased in his own ability to take care of himself under all conditions. He was an expert gas engine man who had erected between 50 and 60 gas engines in various parts of Nevada and was reputed to be the best man of his class in the business. After starting the newly installed engine Wooten went to the crank shaft to see if the bearing showed any signs of heating. In stooping over the sleeve of his coat was caught by a bolt fastening the braces to the connecting rod and was pulled into the crank. On the next revolution he was struck directly behind the ear and killed instantly.

The second level and is expected to break through in a short time. The raise from the intersection of the silver and "new" veins has been extended only a short distance, as ore of high grade is being broken for shipment in a wide area at this point.

Shipments to the MacNamara mill are averaging from 30 to 50 tons daily and the total ore shipped in February was 805 tons.

The first crosscut to the vein was driven at a depth of 165 feet and below this point the crosscuts are at approximate 100-foot intervals, six-foot sets of timbers being used in the shaft.

## COLDEST MARCH FOR THIS SECTION

The storm last night was one of the fiercest known in this section not alone from the velocity of the wind but from the fact that the mercury dropped to the unprecedented degree of 17 which is without parallel for March. The low reading of the thermometer was between 6 and 7 o'clock. The highest wind was 38 miles from the northwest. The barometer is rising this afternoon which would presage better weather. That the reader may understand the severity of the month so far it should be remembered that the average reading for March in the history of the station is 38, whereas the mercury has not been at the figure for a maximum since the month arrived.

The power company escaped with light interruptions. One was due to the burning of a pole between Alkali and Silver Peak which was re-latched in exactly sixteen minutes. The other interruptions were local.

## RIVAL SCHOOLS AT BASKETBALL

On account of the war, Tonopah high and Goldfield high were obliged to lay aside intercollegiate sports for a time. Now the teams have arranged to play four games, two of basketball and two of baseball. The first contest will be basketball to be played in Goldfield Saturday night at 8 o'clock.

According to information received, Goldfield has a little advantage in the basketball game on account of being on their own floor, but Manager Cross of the Tonopah high believes that the difference will be made up by the condition that his team is in. They have been working very hard and are going into the game with a firm determination to win. Early this morning while the inhabitants of Tonopah were peacefully sleeping, the Tonopah team could have been seen making record speed around Mr. Brougher.

Manager Cross has not yet given out the lineup, but it is expected he will do so tomorrow. He has received the Goldfield lineup, which is of about the same weight as the local team, and, according to that, a good game is promised.

Goldfield is backing its team to the limit, which is of great advantage to them. Nothing would please the high school better or help them more to win than to see a full house of Tonopah boosters.

## WORKED WABUSKA AND WAS THROWN INTO COUNTY JAIL

Claude Taylor, the former driver for the Wells Fargo company in Tonopah, was not returned here this morning as he is detained in Lyon county to answer the charge of uttering forged paper in that section. When Chief of Police Grant arrived he had no trouble in finding the fugitive in the county jail. The sheriff explained that Taylor was wanted for local forgeries and would be tried in Wabuska. After that, if Nye county wanted him the prisoner would be surrendered.

## NEW BOY IN FAMILY

Mr. and Mrs. P. S. Perkins of 607 Central street are receiving congratulations on the arrival of a boy baby at their home.

Dr. N. E. Taylor, optometrist of Reno, is now in Tonopah at the Golden Eagle hotel. Eyes examined and glasses fitted.

LOCATION BLANKS in triplicate in book form, on sale at Bonanza office.

## WHAT'S WHAT

(By L. L. Muehett)

Vol. 3 Tonopah, Mar. 7, 1919, No. 12

A few nights ago I had an experience of a most startling nature which I had decided not to mention, but on second thought I believe it best to publish the story. I had occasion to drive out of town to look at some machinery about 9 o'clock the other night. When near my destination, which was situated on a low flat stretch of ground, my attention was drawn to a very bright light coming toward me apparently about 100 feet high in the air. I was of course startled but there was no time to think as the machine immediately came down and coarsed along the ground stopping right in front of me. The pilot quickly jumped out of the machine and said: "Is that you, George?" It was cold and I had my helmet on so that he did not recognize me as the president of the Law Enforcement League. The next thing he did was to commence unloading a lot of square cases and almost as quick as I'm saying it he had ten of them unloaded, jumped into his machine, stepped on her and was away. And there I was the possessor of ten cases of Three Star HENNESSY. Now I want to tell you that anything with the name "Hennessy" is good. When anybody talks HENNESSY they're talking sense.

Now, George, whoever you are, I have turned the ten cases over to Bill Booth and if you'll see him you'll get the goods, minus a couple of bottles.

**MASONIC NOTICE**  
A called meeting will be held tonight at 7:30 o'clock. Work in first degree. Order W. M. J. E. PECK, Sec'y. advM741

The Tonopah Bonanza has the only complete bindery and ruling equipment in southern Nevada.

NETTLETON shoes are not built down to meet a retail price. They are built up to meet an established standardized Nettleton quality and that standard is the highest degree of shoe worth that over forty years of shoe making has been able to develop.

Unusual wear, comfort, grace and beauty of finish are the first consideration. That the maximum of these qualities cannot be produced at a minimum of expense must be apparent to any reasoning man. Our price for

**Nettleton Shoes**

is cost to us plus a fair return on the investment, rent, light, heat, etc. Two score years of giving highest satisfaction has perpetuated the Nettleton phrase—"Economy Through Quality." May we help you to find this economy in Nettleton quality?

The picture shows the Nettleton Saxon shoe for gentlemen.

U. S. Army Officers have set the seal of their approval on Nettleton Military Footwear Extraordinary.

**Men's Shoes, \$4, \$5, \$6, \$7, \$8 to \$12**

**ST. PIERRE'S BOOTERY**

## PERSONAL

JUDGE MARK R. AVERILL is home from holding court in Carson City and Winnemucca.

O. E. SCHIFFNER, superintendent of the Simon mine, arrived this afternoon and will return tomorrow.

DR. W. E. TAYLOR, the optometrist arrived from Reno today and is registered at the Golden Eagle.

CHARLES HUBER, deputy state mine inspector, has returned home after investigating the death of Riley Wooten.

JOE MICHEL left this morning for San Francisco where he goes to meet his daughter who is coming from France.

FRANK MEYER, who was injured in the West End mill last week, was removed to his home last evening.

R. M. HAMPTON, manager of the Spanish Bell mine at Barcelona, returned in last evening from the mine, accompanied by John J. Hennessy, assistant secretary of the company.

FRED GRISWOLD, receiving teller of the Tonopah Banking Corporation has leased the Darrough home which will be occupied as soon as Mrs. Griswold and children arrive from the coast.

G. P. HERRICK, district commercial manager of the Western Union with offices in San Francisco, left for home today after an absence of three weeks visiting offices in Nevada territory.

AL. W. PEARSON, representing Blake, Moffitt & Towne, left for Goldfield by stage this morning and will leave there by the southern route tomorrow for his home in Los Angeles.

MRS. O. SHEPHERD writes from Red Oak, Ia., that her husband, manager of the local Penny company, has passed the crisis in an attack of pneumonia and is on the road to recovery.

Stock certificates printed and bound on short notice at this office.

## AMUSEMENTS

"BILL" HART HERE IN "SHARK MONROE"

There is little doubt that the popular verdict on William S. Hart's splendid photoplay, "Shark Monroe," which is to be shown at the Butler today, will acclaim it one of the finest pictures in which he has yet been seen. In this production Mr. Hart discards the "chape" of the frontiersman and is seen as a typical skipper of a sealing schooner on the Alaskan coast. Monroe is a savage man whose reputation for cruelty extends far and wide. He meets a beautiful young woman in strange circumstances one night and takes her and her dissipated brother to Alaska. He learns to love her with passionate fervor and when she goes to Balam City and falls into the hands of a notorious trafficker of women, Monroe follows and saves her in one of the most impressive situations ever disclosed in any motion picture. Added to the program will be a Paramount-Bray cartoon comedy, "Tomorrow, Viola Dana, in 'The Power of Dusk' and a two-reel Big V comedy, 'Coming Monday, Geraldine Farrar in 'The Hell Cat'."

## SHAFT CONTRACT FOR DIVIDE CON.

John H. Miller, president of the Divide Consolidated awarded a contract this morning for sinking fifty feet of the shaft on the Empire group and by tomorrow the boys will be spudding in for a record with a bonus in sight for beating the time mentioned in the contract. When the 50 feet has been finished the company will have completed installation of the largest plant on the Divide and will go to bat with a determination to get into the ore without any delay.

A 50-foot gallow's frame is being erected. This was brought from Goldfield and three houses from the same camp are on the road between the Divide and the southern town. One of these is 40x60 in size and will be used to house the hoist and compressor. It is not generally known but it is a fact that the Divide Con. has the most powerful equipment of any company in the new district as they have an eight-drill compressor operated by a 100-h.p. motor and a 50-h.p. hoist. The shaft will be sunk at a little distance from the cropping with the intention of cutting the ledge on its dip in the shaft.

The Tonopah Bonanza has the only complete bindery and ruling equipment in southern Nevada.

## CLASSIFIED

FOR RENT—2, 3 and 4-rm furnished houses, University st., above Episcopal church. Mrs. A. Owens. Phone 2106.

WANTED—Messenger boy or girl. Western Union. 1267 Mar 2

## BEN HUR BEGINS WITH 100 FT. SHAFT

The Ben Hur Divide Mining company has ordered installed immediately on their property southeast of the Tonopah Divide mine a Fairbanks-Morse gasoline hoist, a Chicago Pneumatic Tool compressor with the necessary drills, hose, etc. They are going to sink their shaft 200 feet deeper and then crosscut two veins which run through the claims. The work will be done from the 100-foot shaft sunk on the east vein and in which there is a good showing.
